

HOUSE BILL REPORT

HB 1327

As Reported by House Committee On:
Agriculture & Natural Resources

Title: An act relating to the fish and wildlife equipment revolving account.

Brief Description: Creating the fish and wildlife equipment revolving account.

Sponsors: Representatives Blake, Van De Wege, Kretz and Nelson; by request of Department of Fish and Wildlife.

Brief History:

Committee Activity:

Agriculture & Natural Resources: 2/6/09, 2/13/09 [DP].

Brief Summary of Bill

- Creates the Fish and Wildlife Equipment Revolving Account (Account) in the custody of the State Treasurer.
- Provides guidance for the Washington Department of Fish and Wildlife regarding which funds must be deposited into the Account and what they may be used for.

HOUSE COMMITTEE ON AGRICULTURE & NATURAL RESOURCES

Majority Report: Do pass. Signed by 11 members: Representatives Blake, Chair; Jacks, Vice Chair; Chandler, Ranking Minority Member; Smith, Assistant Ranking Minority Member; Kretz, Liias, McCoy, Nelson, Ormsby, Pearson and Warnick.

Staff: Anna Jackson (786-7190)

Background:

Currently the State Wildlife Account (Wildlife Account) exists in the State Treasury. The Wildlife Account consists of funds received from a variety of sources by the Washington Department of Fish and Wildlife (WDFW), such as rentals or concessions of the WDFW, the sale of real or personal property held for WDFW purposes, the assessment of administrative penalties, and the sale of most licenses, permits, tags, and stamps.

This analysis was prepared by non-partisan legislative staff for the use of legislative members in their deliberations. This analysis is not a part of the legislation nor does it constitute a statement of legislative intent.

Funds received from other specified sources, however, must be deposited into the General Fund. These sources include the sale of commercial licenses, funds received for damages to food fish or shellfish, fines and forfeitures collected or assessed by a district court for a violation of RCW Title 77 (Fish and Wildlife), and proceeds from other activities.

Summary of Bill:

The Fish and Wildlife Equipment Revolving Account (Account) is created in the custody of the State Treasurer. The WDFW must reimburse the Account for all funds expended from the Account. The WDFW must deposit all funds generated by the use, repair, or sale of vehicles, water vessels, and heavy equipment into the Account. The WDFW's reimbursements may be prorated over the useful life of the vehicle, water vessel, or heavy equipment.

Expenditures from the Account may only be used for the purchase of vehicles, water vessels, and heavy equipment, including payments for the operation, repair, and maintenance of these items. Only the Director of the WDFW or the Director's designee may authorize expenditures from the Account. The Account is subject to allotment procedures, but an appropriation is not required for expenditures.

The terms and charges for the intra-agency use or disposal through sale of vehicles, water vessels, or heavy equipment is solely within the discretion of the WDFW, and the WDFW's determination of the terms, charges, or sale price will be considered reasonable.

Appropriation: None.

Fiscal Note: Available.

Effective Date: The bill takes effect 90 days after adjournment of the session in which the bill is passed.

Staff Summary of Public Testimony:

(In support) The WDFW manages about 1,150 licensed vehicles, 141 off-road vehicles, 355 vessels, and 163 pieces of heavy equipment. This bill would provide the WDFW with the basic authority and ability to create a self-sustaining fund for managing its vehicles and equipment. Present authority does not allow the WDFW to charge full cost for the use of these assets. Instead, the WDFW is limited to charging only operation and maintenance costs. Replacement costs for these vehicles and equipment have therefore been deducted from operation costs on a sporadic basis and have not been funded by sources that actually use the vehicles. The WDFW is funded by hundreds of contracts from which vehicle use is charged, and the present financial structure does not allow the WDFW to plan and manage the replacement of vehicles over their lifespan, which is the most common and logical

practice. Under the new, centralized structure presented in this bill, the WDFW would reduce the age of its fleet, the overall operating costs, and the number of vehicles, as well as improve the safety, efficiency, and environmental impact of the equipment.

(Opposed) None.

Persons Testifying: Representative Blake, prime sponsor; and Ross Fuller, Washington Department of Fish and Wildlife.

Persons Signed In To Testify But Not Testifying: None.
